OBJECTIVE

I graduated from Leyte Normal University with a Bachelor of Science in Information Technology. I gained real-world experience working at Symphonics Co. Ltd., an IT solutions agency, where I served as a Front-End Lead and UI/UX Designer, contributing to the development of scalable system architectures. During my academic journey, I also took on full-stack responsibilities in our capstone project, allowing me to strengthen my versatility across both front-end and back-end development. I am eager to apply the knowledge and skills I have acquired to real-world challenges and continuously enhance my technical expertise. Driven by a passion for innovation and growth, I aim to contribute meaningfully to dynamic IT projects while further developing as a reliable and productive member of a forward-thinking team.

EDUCATION

Leyte Normal University

Bachelor of Science in Information Technology (BSIT)

Tacloban City
